Summary

Highly motivated and passionate Back-end Engineer with a strong focus on web development, dedicated and focused on completing work quickly to consistently exceed targets. Reliable team member accustomed to taking on challenging tasks. [Click here](#) to view my portfolio. [Click here](#) to view my Linkedin profile.

Experience

freeCodeCamp

Student | 07/2022 - 12/2022

- Learned the fundamentals of JavaScript including variables, arrays, objects, loops, and functions.
- Created algorithms to manipulate strings and various data types.
- Learned two important programming styles or paradigms: Object Oriented Programming (OOP) and Functional Programming (FP).
- Learned how to write back-end apps with Node.js and npm.
- Built web applications with the Express framework and built microservices with MongoDB and the Mongoose library.
- I obtained the [Back End Development and APIs](#) certification
- I obtained the [JavaScript Algorithms and Data Structures](#) certification

Classic Systems Infotech Limited | Ile-Ife, Osun state

Student | 09/2020 - 12/2020

- Enrolled in the computer repair course and graphic design course.
- Analyzed system hardware and software and made suggestions for improvements to lessen lag and increase speed.
- Clearly explained technical knowledge to non-technical people to foster better understanding.
- Used computer built-in diagnostic tools & external software to identify hardware failures and replace non-functional components.
- Gained understanding of the many graphic design concepts and principles in the graphic design course, as well as how to use graphic design tools to put my knowledge into practice.
- I obtained the [Hardware Engineering](#) certification.
- I obtained the [Graphic Design](#) certification.

Skills

Computer literacy, Creative thinking, Teamwork, Research, Problem-solving, Programming(Javascript, Python), Time management, Computer Repair, Technical Writing, Graphic Design

Education

Obafemi Awolowo University | Ile-Ife, Osun state

Computer Science and Mathematics

Languages

English, Yoruba

Certificates

Back End Development and APIs(freeCodeCamp), JavaScript Algorithms and Data Structures(freeCodeCamp), Hardware Engineering(Classic Systems Infotech), Graphic design(Classic Systems Infotech)
